

Week 1 - Needs and Wants

Pre-K – Grade 5 Education

April is National Financial Literacy Month, which is designed to create awareness about the importance of personal financial education. Over the next 4 weeks, we will be exploring different financial education topics with specific age-minded activities and links, designed for your use at home.

This week's topic is Needs and Wants. The activities provided in this document will allow children to explore the difference between a need and a want. Children should understand that people often want much more than they need. As a result, people must make choices about what they truly need and what they can afford.

Included in this document are fun ideas, games and activities that you can do with your children to teach them the difference between a need and a want.

Need: Something that is required to live (food, water, shelter, clothing)

Want: Something we would like to have (bike, iPad, candy etc.)

Basket Collection

Instructions: Find a basket or something similar around the house that kids can use to collect items. Task them with collecting items that they think are both needs and wants. Go through each item that they added to the basket and talk about whether that item is a need or a want. You could also make a Need and Want flashcard (or have your children make them) and ask your child to hold up the appropriate card to go along with the collected items.

Needs & Wants Poster

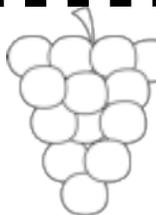

Instructions: Find old magazines around the house that you don't mind your children cutting up. Create a poster with a line down the center and label the right side of the poster Needs and the left side of the poster Wants. Have your children cut out pictures of needs and wants and then glue or tape them in the appropriate column. The completed poster can be used to discuss the differences between a need and a want.

Name _____

Directions: Read the following paragraph. Each term written in **bold** in the paragraph below will also be found in the word search. Find each word in the word search, then circle each word in both the word search AND in the paragraph below. Each term is numbered. There are **22** words altogether.

1- Economics: Overview

A 2- **need** is something an organism must have in order to survive. For example, people need 3- **air**, 4- **food**, 5- **water**, and 6- **shelter**.

A 7- **want** is something someone would like to have. For example, 8- **cell phones**, games, and 9- **computers** are all wants. People can survive without them.

Many people have 10- **jobs** and 11- **work** to earn 12- **money** in order to meet their needs and wants. People use their money to buy goods and services.

13- **Goods** are things that are 14- **made** or grown. Goods are usually things that can be seen or touched such as a baseball, apple, or pencil.

A 15- **service** is work that someone does for someone else. For example, a pet sitter takes care of pets while their owners are away and a 16- **doctor** provides the service of taking care of patients' health.

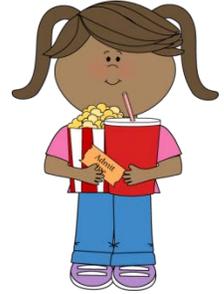

A 17- **producer** is someone who makes or grows goods or who offers services. Farmers, cooks, salespeople, and 18- **manufacturers** are examples of producers. A 19- **consumer** is someone who buys or uses goods and services.

People have a limited amount of money. Because of this, consumers must make choices about what they truly need and what they can 20- **afford**. It's important to buy the things we need before 21- **buying** the things we want.

People who understand this often create and follow a 22- **budget**. They are thoughtful, responsible consumers.
